

FOR AFFORDABLE-HOUSING OWNERS & PORTFOLIO LEADERS

Solar for affordable housing. No upfront capital.

Bring solar and battery storage to your affordable housing portfolio with LightningBug and DAC Energy.

Preserve capital

Install solar with no upfront capital investment by your property or ownership team.

Full-service system care

DAC handles system operation and monitoring, with maintenance and repairs included.

Energy pricing

Purchase the solar power your system produces at the rate set in your agreement.

Put your roof to work. Keep your capital.

With DAC's 20-year Solar Services Agreement, your property pays for the electricity the system generates at a contracted rate. Your proposal sets the energy price and project scope. Available to qualifying properties.

Get your solar proposal started.
